## IN MEMORY OF S. S. COX.

Pleasant Speeches Made at the Presentation of the Memorial Resolutions.

As stated in Saturday's STAR, a committee from the Railway Mail Service Mutual Benefit Association, which body comprises nearly every one of the seven thousand and more railway postal clerks in the United States, presented that day to Mrs. S. S. Cox, at her residence in this city, a handsomely engrossed and framed set of resolutions adopted at the convention of the state as follows: Corn. 96,319 that day to Mrs. S. S. Cox, at her residence in that association, which was held in New Orleans in October, 1889.

The resolutions testified to the appreciation of the association for the labors of Mr. Cox in the cause of humanity. The chairman of the committee on presentation, James B. Cook, made appropriate remarks, and then Mr. W. V. Cox, on behalf of Mrs. Cox. accepted the resolutions. He expressed the feeling of appreciation which this action evoked and said that it could tion evoked and said that it could not fail to give a tender pleasure to those nearest to him whose efforts in your behalf is commemorated. Appropriate remarks were made by Postmaster General Wanamaker, Second Assistant Postmaster General Bell, Capt. James E. NEWS FROM FREDERICK.

Fatal Shooting Accident-New Railroad respondence of The Evening Star. FREDERICK. MD., April 30, 1892.

A fatal shooting accident occurred near New Market, this county, Wednesday evening, the victim being: Willie, a five-year-old son of Moses Crampton, colored, of that place. Wm. Sewall, a well-known colored man of vicinity, called at the Crampton Wednesday evening went to the boy to quiet him and induce him to go to sleep. He says that the little fellow grabbed the handle of a pistol which was in his pocket and pulled it out, and before he could get the weapon away from him it was accidentally discharged, the bullet striking the boy in the forehead. He fell forward on the floor and in a few minutes bled to death. Sewall was arrested shortly after the shooting and taken before Magistrate Houck, who deemed

MAY DAY IN EUROPE.

Few Disturbances Reported-A Bomb In-The first authentic report of a May day dynamite outrage in France was received in Paris at 2 p.m. from Tours, in the department of Intro et Loire. Early yesterday morning a bomb exploded near the Guise barracks. The noise of the explosion was terrible and for a time it was thought that anarchists had attempted to blow up the national powder works, which are situated near Tours. The populace of the city were greatly alarmed until it was definitely known that this was not the cause. Soldiers from the barracks at once ran to the spot where the explosion had occurred and found a man lying senseless in a pool of blood. One of his hands had been blown off and he was otherwise hadly injured. No doubt is explosed. otherwise badly injured. No doubt is enter-tained that he is the victim of his own crime. He was taken to a hospital under arrest, and at last reports had not regained consciousness.

QUIET IN PARIS. Many persons in Paris, fearing conflict be tween the police and workingmen, passed the day at home. There was no display of soldiery, but every one knew that the authorities were ready to put down with a strong hand any at-tempt at disorder that might arise. Everything was quiet in the suburbs, and at the prefecture of police the officials were congratulating them-selves that there had been no trouble worthy of mention. The Petit Journal says that an un-known man placed an iron pot filled with pow-der and scrap iron in a china shop on the Boule-varde Voltaire. He was seen and compelled to decamp before he was able to ignite the fuse attached to his impromptu bomb. NO TROUBLE AT FOURMIES.

Fourmies, in the department of the north was last year the scene of serious rioting, which was attended with considerable loss of life. The celebrants of May day, who included about half the workingmen of the place, formed in procession and marched through the street. A crowd numbering about 4,000 persons hooted the gendarmes and the latter attempted to disperse the mob with drawn sabers. They were received with a shower of stones, and one gendarme was wounded. A number of arrests were made, and the mob determined to release their comrades by force. They assembled accordingly, armed with clubs and stones, and made a regular attack on the police station. The police fired their revolvers in the air, in house police fired their revolvers in the air, in hopes of frightening them back, but with the natural result of encouraging them to further violence. Showers of stones were hurled at the police. The situation had become so critical that the military were summoned to aid the police. The soldiers were subjected to a heavy fire of stones and other missiles at this crisis. The troops received orders to fire straight into the This they did, and the affair was at an end at once. The rioters took to their heels, leaving some fourteen of their number dead and some forty more or less seriously

Accordingly, it was thought that Fourmies yesterday would be the scene of trouble with the workingmen, who would seek to avenge the death of their comrades of last year. There was, however, no trouble. The socialists, of whom there were very many in town, held a monster meeting, but everything was more quiet than was anticipated.

A dispatch from Toulon states that the police of that city arrested five militant anarchists. No disturbances occurred at Toulon.

A dispatch was received from Chartres, capital of the department of Eure et Loire, stating that a panic was caused among the people who attended the services at the cathedral there by an explosion that occurred in the nave of the Accordingly, it was thought that Fourmies

For a time it was thought that it was an anarchist attempt to blow up the cathedral, but the confusion abated when it was found that the noise was caused by the explo-sion of a squib that had been placed in the nave by a mischievous urchin. CONFIDENCE IN PARIS.

The presence of the Prince of Wales in Paris yesterday had great effect in allaying the anxiety. The prince had expressed a desire to remain quiet, but when it was represented to him that the knowledge of his presence in the city would have a beneficial effect he willingly assented to let himself be seen in public. He paid a visit to President Carnot and the latter returned the visit. The Prince and Princess of Wales start for London today. Parisians were charmed at the confidence displayed at to critical a moment.

The Salle Favie meeting proved the weak-ness rather than the strength and audaeity of the turbulent party. Valliant's remarks provoked strong dissent from Basley, who denounced the policy of violence as calculated to impress foreign neighbors with the idea that France was a hot-bed of despera-does. He said that he would never counsel does. He said that he would never counsel the multitude to commit acts that would entail the severest measures of repression. He was an adherent of the revolution, but an enemy of the communistic acts recently perpetuated in Paris. The meeting applicated Basley's sentiments and refused to listen to the Marquis De Mores. The usual resolutions were carried and the meeting dispersed in an orderly manner, singing the Carmagnole and shouting "Vive La Revolution Social."

The crowd of sightseers collected in the

Place De La Concorde yesterday afternoon was easily dispersed. In view of the quiet pre-vailing the minister of the interior re-moved the interdiction of public balls and concerts for last night.

M. Lose, prefect of police, visited Gen. Saussier at 9 o'clock last night and stated that he saw no necessity for the further retention of the military, as the republican guard and the police would be sufficient to preserve order. M. Lose also visited President Carnot and informed him that not a single arrest had

BOMBS IN BELGIUM.

May day at Brussels passed without an incident worthy of note. The workingmen carried out their program for the observance of the day without a hitch, and there was no trouble of any kind. The only dispatch that marred the peaceful tenor of the reports came from Aublin, a town near Couvin, in the province of Namur. At that place a dynamite bomb exploded in front of the burgomaster's house. Little damage was done. A tin cylinder with a fuse attached was found between the colonades of the foreign office last night. This der with a fuse attached was found between the colonades of the foreign office last night. This discovery created great alarm, which was in-tensified by news from Liege, where the dyna-mite cartridges exploded in the evening, one in the residence of Senor Deslys and the other in the residence of his son. These explosions caused serious damage to property. Enor-mous crowds collected at the scenes of the ex-plosions. Later another explosion occurred in the choir of St. Martin's Church, by which stained windows, valued at \$20,000, were shattered into fragments and hundreds of panes of glass in adjacent houses were smashed. A fourth cartridge with a spent fuse was discov-

May day was observed in London in a quiet manner. A large procession formed on Thames embankment and marched to Hyde Park, where monster meetings were held. A large crowd of speakers addressed the crowd, including of speakers addressed the crowd, including Cunningham Graham, the socialist member of the house of commons. Tom Mann and Ben. Tillett, the labor leaders, and Stepniak, the Russian nihilist. Resolutions were adopted declaring in favor of eight-hour day and calling upon parliament to pass an eight-hour bill. There was no disturbance.

A BLACK BAG. A black bag was found in a secluded street beside the Woolwich arsenal. It contained a quantity of guncotton, dynamite and gunpow-der. In it was also found a belt filled with car-tridges and several documents written in a for-eign language, recommending a person whom the police are now tracking. The police refuse to divulge the name of this individual. No fuse was attached to the explosives, and it does not appear that any attempt was made to cause an explosion. The bag was taken to an isolated magazine located on the Woolwich marshes. WORKMEN'S DEMONSTRATION. The workmen began to assemble on the

Thames embankment at 10 o'clock in the morning. Each contingent was headed by a band of music and every band of paraders carried banners, while the men themselves were bedecked with rosettes and flowers.

Altogether the procession made a bright spectacle, and the applause was frequent, as the toilers marched along in perfect order, and with almost military precision. An idea may be given of the magnitude of the demonstration when it is stated that the procession occupied nearly three hours in entering Hyde Park. The number of persons who took part is variously estimated at from 300,000 to 500,000. The speeches made and the proceedings generally were in accordance with the program. A large force of mounted and foot police and a contingent of the St. John's Anbulance Association were present. The assemblage dispersed quictly.

The Woman's Trades Union passed a resolution in favor of co-operation to secure fewer working hours. Thames embankment at 10 o'clock in the

A SACRIFICE FOR HARMONY. How the Sherman and Foraker Factions

Were Brought Together.

Special Correspondence of The Evening Star.
COLUMBUS, OHIO, April 29.—At a considerable sacrifice by the Sherman faction of the republican party in Ohio, harmony is secured at the outset in the campaign of 1892. After plainly showing that they held the controlling power in the convention at Cleveland, they permitted the Foraker faction to have an equal representation in the Ohio "big four" to Minneapol Both factions seem to be well isfied with the result and it now seems quite ossible that the two wings of the party will finp together, a thing which seemed quite imessible two months ago. This result is attributed to Gen. Wm. H. Gibson of Tiffin, who made an eloquent and impassioned speech before the convention, urging mutual concessions in the interest of harmany. The speech
was a forcible one, but, as a mutter of fact, the
program of dividing the delegates at large
equally between the two factions had been
agreed upon in caucus previously and Gen.
Gibson was simply urging the convention to do
what the leaders had already agreed to do.

Lively Contest to Be Congressman-at-Large From Kansas. Special Correspondence of The Evening Star.

TOPERA. The contest for the nomination for Congress man-at-large in Kansas is growing hot, and the republican state convention, to be held at Huthinson on May 5, is liable to be a very exciting contest. At this convention delegates will be chosen to the national convention and a candidate for Congressman-at-large nominated. There are four candidates announced. They are ex-Governor Geo. T. The ticket nominated at Cleveland is an ex-cellent one, and there is not a candidate upon it against whom any particular charge can be made. If the general harmony which is now promised is maintained through the campaign there is little doubt that the whole republican ticket will be elected by the usual 25,000 ma-jority. Gov. McKinley is evidently doing all in his providents.

CROWN AND BRIDGE WORK OR TEETH WITHOUT PLATES.

Teeth that have decayed and broken away may be
operated by upon this system; crowns engrafted upon
the roots given a new lease of life and made as good
and serviceable in every way as natural ones. To be a
success an artificial crown must be so constructed that
it shall permanently arrest decay at the broken end of
the root and strong enough to prevent splitting of the
root or breaking loose from its attachments. We claim
that our crowns have all these requirements, and when
combined with bridge work, which consists in supplying teeth that have been extracted, makes the most
beautiful and durable appliance ever devised as a
substitute for the natural teeth; all this without a
plate to cover the root of the mouth. The advancement in dentistry has been great in the last few years.

REE DENTAL INFIRMARY.—TEETH FILLED and artificial teeth inserted without charge except cost of material at 1325 H st. n.w., dental department of the Columbian University, from 1 to 5 p.m. daily except Sunday; extraction free; infirmary, open from October 2 to June 30.
